Valsamoggia, July 7th, 2019

ATA 300 Statement

In consideration of the fact that with the test reports N. 1500239BRI dated 07/22/2015 (Drop Test) and N. 1500703BRI dated 07/22/2015 (Penetration Test), our EXPLORERCASE mod. 7630 was found to be compliant with the ATA 300 specifications, similarly our following models:

Model	External size (mm)	Weight (Kg.)
4419GE	474 x 415 x 214	4,0
7745.GE	836 x 641 x 489	15,5
10826.BE	1178 x 725 x 287	17,0

being made with the same technology and in the same material, and having similar weight/volume ratio as the already certified model above, are believed to be compliant with the ATA 300 specifications as well.

The final decision whether a separate test for the mentioned models is required or not, is up to the perspective certification authority.
